Ideas expressed in leather

We present our collection that has been the result of inspirations combined with our ability to produce quality articles, on this occasion our Spring-Summer 2015 collection is based on the resources and elements of Mexico, especially landscapes with textures and colors that include a warm and human feeling which are features that we believe highlight of our people.

Arid textures and terracotta colors are predominant, concepts that arise from the deserts of Sonora and the predominant hills of the Bajío area, on the other hand we considered bright colors like orange and hot pink which have been companions of our traditions such as the "Day of the Dead" (día de muertos) known worldwide.

Finally, we focus on natural elements that our country has such great abundance, like mineral resources from the Mines in Zacatecas and our beloved silver treasured in the mines of Guanajuato, water was a source of great inspiration thanks to the ecological factor which allows an ideal game to play with textures and shades, shadow trees that decorate our mountains in spring with intense green contrasted with purple from our buganbilia flower that is recurrent in the city streets on any summer afternoon .

Chaps

Color: Orange.
Familia: Nappa.

Cristal

Color: Brown.
Familia: Nappa.

Sky

Color: Tan.
Familia: Nappa.

Smoke

Color: Rosa.
Familia: Fantasia.

Rhein

Color: Black.
Familia: Nappa.

Polish

Color: Black Klein.
